Safety Data Sheet

Biocide for Cooling

1. Identification of the Substance or Mixture and of the Supplier

Identification:

- **Product name:** Biocide for Cooling
- **Synonyms:** -
- **Formula:** -

Special identification: -

Relevant identified uses of the substance or mixture and uses advised against: Laboratory and industrial use

Details of the supplier of the safety data sheet:

- Prime Atosphere (Thailand) Co., Ltd.
- 888/66 Moo 3, Bang Pu Mai, Mueang Samut Prakan, Samut Prakan 10280, Thailand
- Tel:
- Emergency Telephone Number:

2. Hazards Identification

Classification of the substance/mixture (GHS):

- Acute Toxicity, Oral - Category 2
- Skin Corrosion/Irritation - Category 1B
- Skin Sensitization - Category 1
- Serious Eye Damage/Eye Irritation - Category 1
- Acute Toxicity, Inhalation - Category 3
- Acute Toxicity, Dermal - Category 3
- Hazardous to the Aquatic Environment, Acute Hazard - Category 2

Label Elements:

Signal word: Danger

Hazard statements:

- Fatal if swallowed.
- Causes severe skin burns and eye damage.
- May cause an allergic skin reaction.
- Causes serious eye damage.
- Toxic if inhaled.

- Toxic in contact with skin.
- Toxic to aquatic life.

Precautionary statements:

- Avoid breathing dust/fume/gas/mist/vapours/spray.
- Wash hands thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Use only outdoors or in a well-ventilated area.
- Contaminated work clothing should not be allowed out of the workplace.
- Avoid release to the environment.
- Wear protective gloves/protective clothing/eye protection/face protection.

Other hazards: -

3. Composition/Information on Ingredients

Chemical Name	CAS No.	Weight Percent (%)
Terbutylazine	N/A	N/A
Carbamate	N/A	N/A
2,2-Dibromo-3-nitrilopropionamide	N/A	N/A

4. First Aid Measures

- **If swallowed:** Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.
- **In case of skin contact:** Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Consult a physician.
- **If inhaled:** If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.
- **In case of eye contact:** Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if irritation occurs.

5. Fire Fighting Measures

- **Unsuitable extinguishing media:** Water jet
- **Suitable extinguishing media:** Water fog, Foam, Carbon dioxide (CO_2), Dry powder
- **Special hazards arising from the substance or mixture:** In a fire, toxic/hazardous gases are released: carbon oxides, nitrogen oxides (NOx), sulphur oxides, hydrogen chloride gas and magnesium oxide.
- **Advice for firefighters:** SCBA

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures: Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas.

Personal protection: Goggles/mask/gloves/chemical protective clothing

Environmental precautions: Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

Methods and materials for containment and cleaning up: Soak up with inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal.

7. Handling and Storage

Precautions for safe handling:

- Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Ensure good ventilation/exhaustion at the workplace. Normal measures for preventive fire protection.

Conditions for safe storage:

- Tightly closed
- Good ventilation
- Dry area
- Keep away from heat and sunlight

8. Exposure Controls/Personal Protection

Control parameters:

- TWA: -
- STEL: -

Suitable engineering control: Good ventilation system

Personal protective equipment:

- **Respiratory protection:** Where risk assessment shows air-purifying respirators are appropriate, use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).
- **Eye/face protection:** Tightly fitting safety goggles. Faceshield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).
- **Hand protection:** Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product.
- **Skin protection:** Complete suit protecting against chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

9. Physical and Chemical Properties

- **Appearance:** Liquid
- **Color:** Yellowish
- **Odor:** Odorless
- **Odor threshold:** -

- **pH:** 3.0 - 4.0
- **Melting point/freezing point:** -
- **Initial boiling point and boiling range:** -
- **Flash point:** -
- **Evaporation rate:** -
- **Flammability:** -
- **Upper/lower flammability limits UEL/LEL (%):** -
- **Vapor pressure:** -
- **Vapor density (Air = 1):** -
- **Relative density (Water = 1):** 1.1
- **Water solubility:** Completely miscible: Soluble
- **Partition coefficient n-Octanol/Water (log Kow):** -
- **Autoignition temperature:** -
- **Decomposition temperature:** -
- **Viscosity:** -

10. Stability and Reactivity

- **Reactivity:** The substance is stable under normal storage and handling conditions.
- **Chemical stability:** Stable under standard ambient conditions
- **Possibility of hazardous reactions:** No dangerous reaction known under conditions of normal use
- **Conditions to avoid:** Flame, spark, heat, moisture, sunlight
- **Incompatible materials:** Strong oxidizing agents, Strong reducing agents, Amines, Thiols.
- **Hazardous decomposition products:** See section 5

11. Toxicological Information

Acute Toxicity:

Oral LD50	-
Dermal LD50	-
Inhalation LC50	-

12. Ecological Information

Toxicity:

LC50	96h (Fish)
EC50	48h (Daphnia)
IC50	-

Persistence and degradability: -

13. Disposal Considerations

- **Chemical and contaminated container disposal:** Disposal comply with local regulation

14. Transport Information

- **UN Number:** 2922
- **UN Proper shipping name:** CORROSIVE LIQUID, TOXIC, N.O.S.
- **Transport hazard class:** 8 + 6.1
- **Packing group:** II

15. Regulatory Information

- Hazardous Substance Act B.E. 2535 (1992)
- Factory Act B.E. 2535 (1992)
- Notification of the Department of Industrial Works: Manual for Storage of Chemicals and Hazardous Substances B.E. 2550 (2007)
- Occupational Safety, Health and Environment Act B.E. 2554 (2011)

16. Other Information

- **Revised Date:** 14/07/2026
